

# Project Development Phase

## Sprint 3

|              |   |
|--------------|---|
| Date         | 12 November 2022                        |
| Team ID      | PNT2022TMID2087                         |
| Project Name | AI BASED DISCOURSE FOR BANKING INDUSTRY |

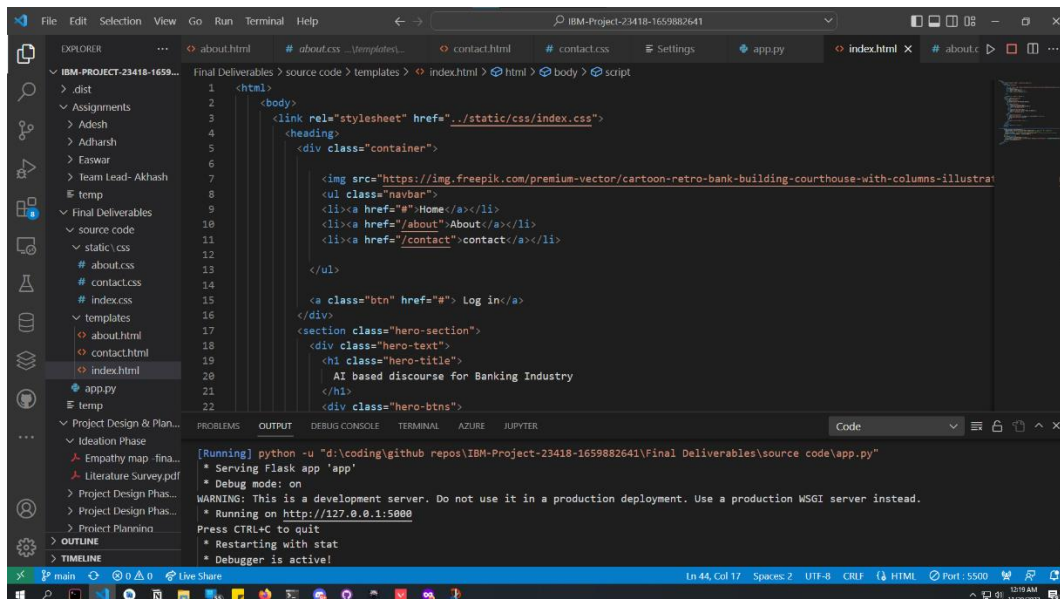

### Screenshots of Sprint 3 Tasks:

#### Build Python Code:

```
1 from flask import Flask,render_template
2 app=Flask(__name__)
3 app.static_folder = 'static'
4 @app.route('/')
5 def home():
6     return render_template('index.html')
7 @app.route('/about')
8 def about():
9     return render_template('about.html')
10 @app.route('/contact')
11 def contact():
12     return render_template('contact.html')
13
14 if __name__ == '__main__':
15     app.run(debug = True)
```

The screenshot shows the VS Code interface with the Python code for the Flask application. The code defines a Flask app with three routes: home, about, and contact. The home route returns the index.html template, the about route returns the about.html template, and the contact route returns the contact.html template. The app is run in debug mode.

```
1 <html>
2 <body>
3     <link rel="stylesheet" href="static/css/index.css">
4     <div class="container">
5         
6         <ul class="navbar">
7             <li><a href="#">Home</a></li>
8             <li><a href="/about">About</a></li>
9             <li><a href="/contact">Contact</a></li>
10        </ul>
11        <a class="btn" href="#"> Log in</a>
12    </div>
13    <section class="hero-section">
14        <div class="hero-text">
15            <h1 class="hero-title">
16                AI based discourse for Banking Industry
17            </h1>
18        </div>
19    </section>
20 </body>
21 </html>
```

The screenshot shows the VS Code interface with the HTML code for the index.html file. The code defines the structure of the web page, including a container with a bank building illustration, a navigation bar with links to Home, About, and Contact, a Log in button, and a hero section with a title "AI based discourse for Banking Industry".
